

In the spring of 2021, Hercules sets off for Mount Olympus, the seat of the gods.

Oh...Hercules!

What I witness and experience myself,

that is truth for me.

But ...

I am

Hercules incarnate.

I am the reputable Hercules.

And unfortunately

I'm not immortal.

But somehow I have a soul mate with this ...

Mythology of Hercules.

Because my life actually only has to do with heroic deeds

if I think about it.

**Hercules' father was Zeus, god of thunder and lightning,
who begot him out of wedlock with the human Alcmene.
His son, however, was not only to have the strength of an ordinary man,
so he brought Hercules the milk of his wife Hera.,
so that he might drink it and attain divine powers himself.**

**Hera, who saw in Hercules the proof of Zeus' unfaithfulness, was enraged,
that Hercules' immortality should be granted with the help of her milk,
and so she put a curse on him.**

very good

I might even be the black sheep at home.

You might say that ...

Because when you're young,

you also do dumb things.

One might say: if you're not brought up well ..

My father was in politics.

He had meetings with the important chancellors and ministers.

I once heard that there has been an assassination attempt on my father.

So of course ...

When I heard that, of course I drove down there immediately.

Because I was young then.

But he always arranged, that I ...

He had to leave.

So, and then I had to leave because he had to leave.

Yeah, not to stay there.

Not to ...

Yes, I might make a fuss ...

Falling into disrepute,

or a thousand things, that could happen.

I don't know.

Just this notion of black sheep,

it just means

that someone somehow doesn't belong, or rather

is just bad.

And that's why I say black sheep, because I ...

I've always made a lot of trouble.

A lot of trouble.

For some reason I didn't like my life.

It suddenly struck me and it wouldn't let go of me.

Why are you like that, Hercules ?

You don't even want to be like that.

From the heart , you're a nice person,

a happy person, a friendly person,

a good human being.

But basically I didn't live like that.

The reason was actually that I at some point

stood in front of the kadi.

In front of the kadi.

Kadi is the german court.

I was convicted.

I was first charged, then I was convicted.

But I always had the hope

because I love cowboy movies.

Back then, there was John Wayne.

I will never forget that.

In a scene, someone was wrongly suspected

and they wanted to lynch him.

And then John Wayne defended him

'til the judge came.

And then he was acquitted

Respectively, the truth came out.

This event gave me so much courage.

But when I was convicted after all,

and found out judges like that don't exist,

and it doesn't happen like in TV ...

And it's not the way it went in the children's book.

So that was the reason why I,

banned the TV, in the first place.

Because I let myself be fooled by these informations,

which have nothing to do with life, at all.

I really thought that life worked like what I had seen

as a young lad.

Well, that ...

That I won't forgive our state.

Back then, chancellor Kohl ruled.

How many letters have I written him?

Helmut Kohl.

The great thing about it is though

he sat in a wheelchair for years, handicapped like that.

I said to myself

Of course there is a God.

He punished him.

**The more Hercules fought back, the stronger the beast became.
For every step forward, he was thrown back two.
And so the battle seemed to go on forever.**

Do you see how accurate I am?

I am the Hercules.

I am the real one!

This divinity, this perfection ...

Human kind can't reach it, because ...

Because he is not a god, after all.

Or because ...

Or because.

I would say ...

**Despairing of how to redeem the guilt of his misdeeds,
Hercules sought out the Oracle of Delphi to consult it.**
